RE: Meeting w/ Friends of Hereford Inlet Lighthouse

Message:

I. Mayor and Administration
   a. Noted that the Friends have already received notice of the cancellation of the preexisting management agreement between the City and the Friends.
   b. We are working out a new draft including changes in line with some of our concerns from last year.
   c. The current lease has been problematic to say the least, and we will be providing you with a copy of the new proposed management agreement shortly, which will clearly define the Friends roles and responsibilities.
   d. The City's main goal in focus is to diminish any potential preexisting liability.

II. Friends of Hereford Inlet Lighthouse
   a. Noted that the current management agreement was quick to be written and understands that there are numerous inconsistencies.
   b. Stated that the City having the lease of an historic site is highly unusual, but that is how it currently is.

III. The meeting was left with the notion that the Friends of the Hereford Inlet Lighthouse will be receiving a copy of the new management agreement shortly, and it will outline all specifications.
