# History of North Wildwood

(Photo by Dorothy Kulisek)

The City of North Wildwood, on Five Mile Beach, was originally formed as the Borough of Anglesea in 1885. The name of the municipality was changed to North Wildwood in 1906. The form of government was changed from borough to city in 1917.

Railroads brought visitors from 1883 to 1933, and the population of the community steadily increased to a high of 5,017 in 1990. The vehicle bridge over Beach Creek, completed in 1924, was replaced by a modern-four-lane highway in the 1990s.

Beaches and boardwalks have always played an important role in the community. The first raised, permanent boardwalk was built on Surf Avenue in 1904 but was soon moved eastward on the expanding beach. The current Boardwalk was built in 1927.

Tourism continues to be the focus of the City. The area where many of the original hotels stood in the northern part of the City has evolved into a vibrant entertainment district on Olde New Jersey Avenue. This district is the home of a number of special festivals held throughout the year. The beaches and Boardwalk continue to attract thousands of visitors each year, providing fun and activities for all to enjoy. The Hereford Inlet Lighthouse and its award-winning Gardens will be a highlight of anyone's visit to North Wildwood. From fishing on the seawall in the north end to strolling on the beach or Boardwalk at the south end, North Wildwood continues to be a **"Place in the Sun for Family Fun,"** as it has been since 1885.

## Veterans Monument

## The AngleSea Walk

The seawall was completed in 2006 and has not only protected the North end of the City during hurricanes and Nor'easters, but also functions as a walking and jogging facility, a popular fishing spot, and a place where residents and visitors can enjoy the wonderful views of Hereford Inlet. Since its completion, the City has added more access ramps and widened one section to make it safer. Due to safety concerns, no self-propelled devices, such as bicycles, skateboards, rollerskates, and the like, are permitted on the seawall. Beginning at 2nd & John F. Kennedy Beach Drive, the seawall runs in a northwesterly direction for 1.25 miles to the Anglesea Beach Colony. The seawall is known far and wide as a great place to exercise, fish or just relax, all year-round.
